

## Returning to the Darkness

### Description

**THE COSMIC KEYS**

Why do some of us feel so much more relaxed when the lights are low?

Well, I will tell you, the darkness is that from whence we came — the womb, the world of spirit, the 3am hour when the veil is the thinnest and the spirits enfold us.

Shadow also destabilizes [ectoplasm](#). It is for this reason that the seance must be performed without any light.

In these upcoming days of darkness, do not forget to have HOPE.

Namaste ?
